

We signed up for an advertised special with Nextel. The special indicated that our monthly fee would be \$39.99. We added Caller ID and Voicemail (\$1 per month extra for each) thinking that this would bring our monthly total to \$41.99 plus approx \$3.00 for taxes. We have Federal Excise Tax (3.000%) Federal TRS Charge (0.073%) Federal Univ Serv Assessment (1.087%) State Sales Tax (6.000%) State Gross Receipts Recovery (5.000%) and a Federal Programs Cost Recovery of \$1.55 (flat fee). Surely this is false advertising when they don't include the extra fees, which is \$8.08 for us and that's if we don't accrue any additional charges like long distance, because if we do, our extra fees are a lot more. After my two years, I'm done with nextel. Of course by then we have given them a lot of extra money. Hope you can do something about their rip off schemes like possibly putting a cap on extra charges..thank you for listening.
